

ELECTRICAL SAFETY TRAINING

It is important to keep your employees safe from electrical hazards. Our electrical safety training is NFPA 70E compliant, and we can fit the training to your needs. We have provided customers from one to four-hour safety training classes, from first shift through third shift to fit your employee's schedule. We have our own exclusive demonstration unit designed specifically for electrical safety training to get the most out of your training.

We offer:

- Hands on demonstration of NFPA 70E procedures for establishing an electrically safe work condition.
- Demonstration of protection boundaries:
 - * Arc Flash Boundary
 - * Limited Approach Boundary
 - * Restricted Approach Boundary
 - * Prohibited Approach Boundary
- PPE demonstration for hazardous risk categories: 0, 1, 2, 3, and 4
- Demonstration of use of insulated tools
- Demonstration of safe work practices
